Summary

Aspiring full-stack developer proficient in HTML, CSS, JavaScript, Spring Boot, Angular and MongoDB

Strong foundation in Data Structures and Algorithms (600+ LeetCode)

Dedicated problem solver focused on effective solutions

Eager to contribute in collaborative team environments

Technical Skills

Languages: Java, JavaScript

Frontend: HTML5, CSS3, Angular, React, Bootstrap, Material UI

Backend: Spring Boot

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code

Concepts: DSA, OOP, SDLC, REST APIs, Debugging

Experience

Apmosys Technologies Pvt. Ltd.

Mar 2025 - Jun 2025

Development Training on Spring Boot and Angular

– Underwent hands-on training in full stack development using Spring Boot and Angular

– Built responsive, scalable web applications with REST APIs

– Gained experience with dependency injection and component-based architecture

– Participated in daily standups and agile development processes

Projects

Customer Management System

Angular, Spring Boot, MySQL

– Developed full-stack system for managing customer data with Angular frontend

– Implemented CRUD operations with Spring Boot REST API backend

– Designed responsive UI with Angular Material components

– Implemented form validation and error handling

Weather Website

React, Material-UI, Weather API

– Real-time weather updates with dark/light mode toggle feature

– Responsive UI design with API integration using Axios

– Implemented location-based weather fetching

PulseFeed News App

React, Material-UI, News API

– News application with customizable category filters

– Modern UI with real-time updates from multiple sources

– Implemented search functionality for news articles

– Optimized performance with lazy loading

Education

University Institute of Technology

2021 - Present

B.E. Information Technology — CGPA: 8.36

Burdwan

+2 High School Bhabua

2021

BSEB (12th) — 73%
